Career Objective

Driven and detail-oriented aspiring Data Analyst experienced in analyzing datasets, identifying trends, and delivering actionable business insights. Skilled in creating interactive dashboards that provide meaningful, decision-ready insights rather than just visual designs, helping businesses make smarter data-driven decisions

Education

Bannari Amman Institute of Technology B.E. Electronics and Communication Engineering ◦ CGPA: 70%	2022-2026
Higher Secondary Education SVGV Matriculation Higher Secondary School ◦ Percentage: 77.5%	2020-2022
Secondary Education Mahatma Gandhi Matriculation Higher Secondary School ◦ Percentage: 66%	2019-2020

Technical Skills

- **Data Visualization:** Power BI, Tableau, Excel (Pivot Tables, Power Query, VLOOKUP/XLOOKUP).
- **Analytics:** Exploratory Data Analysis (EDA), Sales Analysis, Trend Analysis, KPI Tracking.
- **Concepts:** Data Modeling (Star Schema), ETL Process, Time Intelligence.
- **Programming:** SQL, Python (Intermediate), DAX.
- **Business Insights & Reporting:** Requirement Gathering, KPI Definition, Stakeholder Communication, Process Mapping, BRD/FRD Documentation.

Soft Skills

- Structured Thinking, Business Curiosity, Ownership Mentality, Data Storytelling, Systems Thinking.
- **Languages :** English , Tamil.

Projects

Sales Performance Analysis

Tools: Power BI, DAX, Excel, SQL.

- Analyzed 50,000+ sales records to identify revenue trends, top-performing regions, and key KPIs like profit %, growth, and top products using dashboards and DAX measures.
- Identified low-profit regions and discount impact on profitability, and proposed strategies to improve overall profit performance.

Datarythm AI [Live Link](#) [🔗](#)

- Developed an automated tool to analyze user inputs and generate meaningful data-driven insights, finally presenting results through a visual dashboard.
- Implemented data processing and rule-based logic to identify patterns and improve decision-making.

What-If Business Simulator [Live Link](#) [🔗](#)

- Built an interactive tool to simulate business scenarios by modifying variables like cost and revenue.
- Enabled real-time analysis of outcomes to support data-driven business decision-making.

Internship

Business Development – Intern (Sep 2025 – Dec 2025) (Sketch Brahma Technologies,Bangalore)

- Analyzed market and sales data using CRM and Excel to generate insights and support business decisions.
- Communicated with stakeholders and collaborated with cross-functional teams to align business needs with solution delivery.
- Gathered and documented client requirements, maintaining structured reports and tracking sheets for alignment.
- Tools Used: MS Excel,Google Docs,CRM,LinkedIn Sales Navigator,Apollo.io,Canva,Adobe Express.

Full Stack

- Full Stack intern at RUDDO Academy, built a responsive web app using HTML, CSS, and JavaScript.Implemented user login and data storage features with modern web technologies.

Achievements

Award Recognition for IoT Innovation

The BRICS FS-16 Internet of Things International Final awarded the **Second Prize**, recognizing outstanding innovation and achievement in IoT technology.

Certification

Oracle Cloud Infrastructure Foundations Associate) [Link](#)

- Knowledge of Oracle Cloud Infrastructure helps me understand how business and large datasets are stored, processed, and accessed in cloud environments. From both Business Analyst perspectives, it enables better collaboration with technical teams, supports scalable analytics, and helps generate insights for data-driven decision-making.
